

[illegible][illegible]

It was John Morrison son of Dr. James Morrison, a Hygienist, who spent a day or two there, while on his travels through the States; he informed us that he was once prostrated by a fever, we think he said typhus fever, (his name matters not) and was pronounced by friends and physicians "near his end," and recovery. It is a rare case the physicians and said, "I think I have cured him," and Morrison with (30) No. 2 Pills, did not notice the daily effect, and he gave him 60 No. 2 Pills and continued these doses for several days, until he was out of danger. Violent diseases require large doses. Large doses in a season, will prevent a long sickness.

Mr. L. Cur is, known by all in this town and vicinity, was laid up with inflammatory rheumatism and to be hit into and out of bed, his limbs were swollen very large and his pains were very acute he had been trying various things, without relief. He was cured by Dr. C. Johnson against his wishes, he sent us for a \$1 package of Morrison's medicines and by them he was cured. We had this information from Mr. Curtis himself, he is here and can be enquired of concerning it. Mrs. Johnson, known to most of the inhabitants of Burlington, was laid up with the same disease and could get no relief, she sent us for a package of Morrison's medicine, and says when taken the fifth dose, the swellings and the pain began to leave her, and the friends who have seen this disease, can realize the happiness of this medicine.

ABSENT PAIR.

Morrison's Pills cured Mrs. Johnson.

Applications for agencies or medicine, (post paid) promptly answered.

H. L. CHENEY, Rutland, W. F. Reynolds, Factory Point, In Button, Branton, Kent, Wright, Asham, James Hall, Orwell, J. Frost, & Co. Bridport. 4-1

IMPORTANT TO THE LADIES—Just received and for sale by H. T. Witter & Co. Rutland, a few boxes Reynolds & Parmley's celebrated Female Health Restorative. It is designed particularly for the diseases peculiar to the female constitutions. A good medicine of this kind has long been wanted, as many of these diseases have baffled the skill of the most eminent physicians, and the remedies heretofore in use have proved ineffectual in thousands of cases. This medicine invariably removes obstructions, &c. And as a mother's relief, it is not equalled by any other medicine. It is not a cathartic, but tonic, strengthening and restoring the system to a healthy action. It is recommended by many of the most eminent physicians in the United States. Doct J. Morrison, from Colerain, Mass who has practised medicine some 20 years at Ononda, N. Y. says in relation to it "That it is the best medicine now in use."

I have tried it in the worst cases of female complaints with admirable success, and I wish for the good of suffering females that all physicians would introduce it in their practice, and have confidence to believe they would find happy results, as I have found the pills to answer fully their recommendation." Doct. R. D. Davis Syracuse, N. Y. tells a similar story, and many others. For further information are referred to the persons whose names are annexed to our show-bills, and to the pamphlets and agents for gratuitous distribution.—Fifty cents dollars per box, containing nearly one hundred Pills. Prepared and sold wholesale and retail by Reynolds & Parmley Putisford, Monroe Co. N. Y., sold also by D. H. Meacham, D. M. Wallington, Jackson C. Ketcham, Brandon, Moody & Adams, Middlebury, F. Huntington, Vergennes Doct. Peck, Burlington, A. R. Vail & Co. Danby, D. Andrews, Manchester, Morrill & V. D. McLaughlin, Burlington, Gillison & Tryer, Hyattsville, and by H. T. White & Co., at the Rutland Bookstore.

REYNOLDS & PARMELEY,
Shelburne, Aug. 20, 1839. eow

Valuable Information.

THE Indian Vegetable Pills are a certain cure for disease in its every variety of form, because they thoroughly cleanse the lungs and bowels, induce a proper discharge by the lungs and bowels, and stimulate the blood to purify itself. In other words, they open all the natural drains, and leave Nature, (the grand physician) free to drive disease from the body. The above outlets, or drains, are the common-sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off; and so long as they are kept open, and discharge freely their allotted portions of impurity, the body will continue in health; but, when, from any cause, breathing impure air, sudden transition from heat to cold, over-exhaustion, or any other cause, he bowels become costive, the pores of the skin become closed, or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by these outlets, will be retained, and continue to accumulate until the body becomes literally loaded with disease.

If the channels, or mighty rivers should become blocked up, would not the accumulated waters find new outlets, or would not the rivers be inundated? Just so with the human body; if the natural drains become closed, the stagnant and corrupt humours will find vent in the various forms of disease, such as fever, small Pox, measles, leucumias; gout, apoplexy, &c., or death will end our sufferings. Therefore, when sickness at the lungs, pains in the back and side, quick pulse, burning skin, or any other unpleasant symptoms indicate that one is diseased, and that the restoration of health, no time should be lost in administering a few doses of the Indian Purgative (Indian Vegetable Pills). By so doing, all the functions of the body will be restored to order, and the foul humors, the cause of every inflammation, or in we suffer, will be removed in so easy and natural a manner that the body will be restored as if by a charm.

The above pills may be taken at all times, and under all circumstances, with perfect safety. They suit ALL COMPLAINTS, and all ages, and are as natural to the human constitution as food; consequently, they can never injure, even the most delicate. Like our food, they are digested; and as they enter into the circulation and impart an elastic and good blood, which enables it to flow with freedom upon the extremities and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood, because they drain all corrupt humours from the life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humours which are opposed to health. They aid in improving digestion, and sound sleep follows their use. They cleanse the stomach and bowels of those slugs, or mucus which not only irritate and excite the nervous system, but paralyze and weaken the digestive organs. In short, they possess all the good qualities that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

Persons of the most delicate and nervous constitution to who have been cured of persons of apparently the most dangerous character, solely by the use of the Indian Vegetable Pills.

Office, and General Depot for the sale of the above pills in the New England States; 135 Tremont Street, near Court street, Boston, where they can be had at all wholesale and retail.

Agents have been appointed for the sale of the Pills in most of the towns in New England.

All letters relative to the Pills must be addressed thus: 'N E Office N A College of Health, Tremont street, Boston, Mass.'

Diseases of the Lungs.

scidely the most popular remedy ever known in America.

Vegetable Pulmonary Balm.

IS the most valuable remedy now in use for Coughs, Colds, Asthma or Plague, Whooping Cough, a Pulmonary Affections of every kind. Its sale is steadily increasing, and the testimonials are constantly arriving, the most favorable accounts of its cures.

The following new certificates are offered for publication.

An interesting Case.

Extract of a letter from Mr. S. C. Clay, Kingston, Uster Co. N. Y., to the proprietors.

Yours of the 9th inst. was duly received. A remarkable cure was effected by your Vegetable Pulmonary Balm, in my case, in the winter and spring of 1833. I am now a person, Mr. Moody, has been sick a long time, the consumption. The physicians had given him up. He was reduced so low as to be unable to help himself, and was raising a large quantity of blood which he commenced using the Balm, which effected a complete cure, in about three weeks and a half. I never he was. Mr. Moody has removed from this to he has but promised to furnish me a more detailed account of his case, which I will forward you.

S. C. CLAY.

Kingston, N. Y. June 25, 1833.

Extract of a letter from Dr. Jacob Myers, Middlebury, N. Y., to the proprietors.

"The Vegetable Pulmonary Balm has been so in this county for two years, and the medicine has gained an uncommon celebrity; for it has scarcely failed in one instance of having the desired effect. I am by no means in favor of the many nostrums of which are impostures upon the credulous public, but that which I know by experience to be actual, I cannot help but give my approbation thereto. A counterfeited preparation has been offered here by traveling agents from Comstock, N. Y., and there is also another article vended here that is strongly suspected to be spurious.

JACOB MYERS, M. D.

Middlebury, Junius Co. Penn. May 3, 1833."

From Mr. Samuel Morrill, to the proprietors of the Vegetable Pulmonary Balm.

I am satisfied that the Vegetable Pulmonary Balm is a valuable medicine. It has been used in my place with complete success in a chronic complaint of the lungs, attended with a severe cough, low voice and the raising of much food, which had previously resisted many approved prescriptions. After using the Balm one week, the patient's voice recovered, and he was enabled to speak audibly. The case occurred some time since, and the medicine engaged not only in active, but in laborious business.

Respectfully yours, &c.

S. MORRILL, M. D.

Concord, N. H. Jan. 20, 1832

"I now more than six years since I was brought down by an affection of the lungs, and my complaint was declared to be incurable by a council of three physicians. I was then restored to good health as I had enjoyed for many years by using the Vegetable Pulmonary Balm. Since my recovery, I have used the Balm in a great many cases of lung complaints, and so far as I can learn, it is used and has been invariably followed by much benefit, in many in stances it has "effected cures which were wholly unexpected." SAM'L EVERETT, Boston, March 2, 1837.

BEWARE OF IMITATIONS.

Each genuine bottle is encircled with a blue wrapper on which is a yellow label signed Sampson Reed.

None other can be genuine.

The great celebrity of the Genuine Vegetable Pulmonary Balm has been the cause of attempts to introduce spurious articles which by partially assuming the name of the Balm, are calculated to mislead and deceive the public. Among these miscreants the 'American Pulmonary Balm' Vegetable Pulmonary Balm Syrup, 'Pulmonary Balm,' and other Purchasers should inquire for the true article by its whole name the Vegetable Pulmonary Balm, and see that it has the mark and the name of the genuine one. Each bottle and seal is stamped [Vegetable Pulmonary Balm.] Price 50 cents.

Latest cheat!—T. & H. Keyes, Newbury, Vt. are interested in preparing a spurious imitation, called 'Compound Pulmonary Balm,' and they are endeavoring to sell it as the genuine one, by their mixture, on the ground that "it is done up in good style."—T. Similar to Sampson Reed's Balm.

"Call for it." Again we say, look out for counterfeits.

For sale by
27—ly DANIELS & BELL.

Saddle and Harness Manufactory.

THE subscriber would inform the public that he has commenced the above business upon the old stand, formerly occupied by G. W. Ellis in Castleton, where he hopes to receive a liberal share of patronage. JOHN CALLAGHAN.
Orwell, Vt. March 10, 1840.

D. Jaynes Expecto-rant.

This invaluable medicine is daily exalted by the most astonishing and wonderful cures that have ever been known. All who have tried it for Asthma, Coughs, Hoarseness, Consumption, Catarrh of the Lungs, Pleurisy, Hoarseness, Pain and Swelling of the Throat, Inflammation of the Lungs, and all the diseases of the lungs and breast, can testify to its usefulness. Bronchitis, a disease which is annually sweeping thousands to a premature grave under the mistaken name of Consumption, is always cured by it. The usual symptoms of this disease (Bronchitis), are Cough, rawness of Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a spitting up of blood, and sometimes blood. It is an inflammation of the fine skin which lines the interior of the wind tubes or air vessels, and runs through every part of the lungs. The expecto-rant immediately suppresses the Cause of the Inflammation, Fever, a difficult breathing, and produces a free and easy Expectoration, and cure is soon effected.

It always cures Asthma—two or three doses will cure the Croup or Hoarseness of Children in fifteen minutes to an hour's time. It immediately subdues the violence of Whooping Cough, and effects a speedy cure. Hundreds of persons are now cured by their physicians as they speak of "Concussion," have been restored to perfect health by it.

JOHN HATIAN OUNG, D. D. President of Granville College, Ohio, (late of New York) says "he was laboring under a severe cold and hoarseness, and that his difficulty of breathing was so great that he felt himself in danger of immediate suffocation, but was speedily cured by using this expecto-rant." Delia, of Salem, N. J. was cured of Asthma, after twenty years standing, by using two bottles of this medicine. Mrs. Ward, also of Salem, cured of the same complaint by one bottle. A young lady, also of Salem who was beloved by her friends to be far gone with the Consumption, was perfectly restored by three bottles—Hamilton, of St. James, South Carolina, was greatly affected by a cough, hoarseness, soreness of the lungs, and on using a bottle of this medicine found permanent relief.

Extract from a Certificate from Rev. Dr. Isaac Taylor, President of Waterville College, Maine.

"From intimate personal acquaintance with Dr. Jayne, a regular student of the Medical University of Pennsylvania, and an experienced practitioner of medicine, I was prepared to appreciate the numerous testimonials in favor of his different medical preparations, none so highly than the great majority of those which have been extensively eulogized. On trial of them in my own family, and some of them personally have more than realized their favorable attestation. They are what they profess to be—quick nostrums—but skillfully prepared nostrums, for some of the most afflictive of human ailments. Coughs, if they are highly esteemed, are frequently prescribed by some of the most respectable of the regular practitioners of medicine in this city and elsewhere, and I do not like to commend them as a valuable addition to the materia medica, and a safe, as well as efficacious remedy for the diseased."

RUFUS BABCOCK, M. D.
Philadelphia, June 7th, 1838.

The following Certificate is from a precise physician and a much respected Clergyman, the Methodist society.

Dr. E. Jayne.—Dear Sir, Town, Va. Aug 27, 1838. I have been using your expecto-rant extensively in my practice for the last three months, and for all attacks of Coughs, Inflammation of the Lungs, Consumption, Asthma, pains and Weakness of the Breast, decidedly the best medicine I have ever tried. Respectfully yours R. W. WILLIAMS M. D.
The Rec. C. C. P. Crosby, late Editor of the Methodist Baptist, writes,

Dr. Jayne.—Dear Sir, New York, June 6th, 1838. I have used your Expecto-rant personally and in my family, for the last six years, with great benefit. Indeed I may consider my life prolonged by the use of this valuable medicine under the blessing of God, for several years. I may say almost none in the case of my wife, and also of my son Mr. Timson, of the Island of Jamaica. In all cases of cough, inflammation of the chest, lungs and throat, I do most unhesitatingly recommend this as the best medicine I have ever tried. In earnest wishing, that others afflicted as I have been, may experience the same relief, which am persuaded they will, by using your Expecto-rant.

C. C. P. CROSBY.

Dr. D. Jayne.—Dear Sir,—My child, over exposure, when recently coming up the Ohio was attacked by that horrid malady, CROUP. We landed in the night at Beaver point, and our fears were alarmed, least the hoarse cough, or croup, was the forerunner of death. I gave him a teaspoon full of the "Expecto-rant" (a bottle of which I purchased from Philadelphia), and applied it locally to the throat and breast, and before many minutes the hoarseness was gone, the child breathed freely and slept sweetly. Owing to these circumstances, it could not be wondered at why I have high an opinion of Dr. Jayne's medicine, and I divide every family to keep it on hand, ready for any emergency. Respectfully, yours

ARTHUR B. BRADFORD.

Pastor of the Presbyterian Church, Burlington, N. H.

Another testimonial equally responsible, might be added, but the above are considered sufficient evidence of its efficacy.

Prepared only by Dr. D. Jayne No 20 South street Philadelphia, and may be had of H. B. White & Co. Rutland, Vt. and G. H. Merriam, Wallingford, Vt. Price \$1. [No 1 low 50c.]
